To Whom It May Concern:

It is my pleasure to voice support for the campaign to build the WSU Sigma Chi Centennial Chapter House.

I want to congratulate the Sigma Chi fraternity chapter house here at WSU for its 100th anniversary and its continuing mission of helping to create good community leaders and fine men.

Your decision to provide a world-class living and social environment, and first-rate study and meeting accommodations complete with state-of-the art technological facilities, will enhance the overall university experience for your undergraduates.

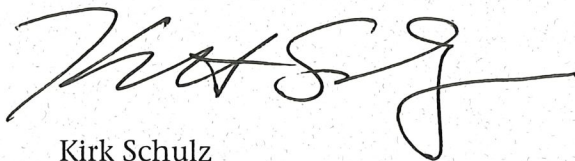

I am also pleased to know that your Sigma Chi General Fraternity, through the Sigma Chi Foundation Risk Management Foundation and Constantine Capital, also agree to support your project. It shows broad awareness that you're planning is wise and prudent.

A strong university depends on the allegiance of its students and alumni. Sigma Chi has made significant contributions to WSU over the years, and we appreciate your continued support of this exciting and important project.

My early predecessor from 1915 to 1945, Washington State College president Ernest O. Holland, who was also a Sigma Chi, presided over the installation of your chapter on November 15, 1919. I look forward to following in President Holland's footsteps by helping to cut the ribbon to open your new \$5 million + project and officiating over the unveiling of President Holland's memorial on your property.

Your unwavering commitment to Washington State University will be appreciated and recognized by students, faculty and staff for years to come.

Sincerely,

Kirk Schulz
President
